

# Ultra Mirage™ II Nasal Mask

The all-round performer

ResMed's Ultra Mirage™ II Nasal Mask is suitable for the majority of patients on positive airway pressure—using ResMed's CPAP, bilevel, or AutoSet™ devices.

Available in four cushion sizes (Standard, Large, Shallow, and Shallow-wide), the Ultra Mirage II will fit most patients—first time, every time.

The Ultra Mirage II continues to set the benchmark for nasal masks in terms of seal, comfort, and quietness—valuable for effective therapy.

It incorporates ResMed's renowned Mirage dual-wall cushion technology and a unique air vent design for ultra-quiet performance.

**Forehead support**  
provides better seal and stability with easy one-handed adjustment and a choice of four clearly numbered positions

**Flexible forehead pads**  
one-piece design evenly conforms to the contour of the forehead so pads stay in place

**Mirage dual-wall cushion**  
reduces pressure on the nasal bridge and optimizes seal and comfort

**Cushion clip**  
ensures mask cushion is easy to attach and detach from the frame

**Quick release clips**  
allow for easy removal of the headgear and eliminate the need for continual adjustment

**Air vent**  
provides optimum CO<sub>2</sub> washout and minimum noise output

**Swivel**  
offers a convenient way to connect and disconnect the air tube

**360° elbow rotation**  
provides flexibility of tubing position

**ULTRA MIRAGE™ II**  
NASAL MASK

## Technology highlight— unique air vent

- Unique air vent design minimizes airflow intensity and noise.
- Air from the vent is directed down the tube, away from both patient and partner.
- Air vent specially designed to provide adequate flow to wash out exhaled CO<sub>2</sub>.

### Adjustable forehead support

- Provides additional support especially for those patients on higher pressures and/or bilevel therapy.
- Offers a choice of four numbered positions for better seal and stability.

### Swivel

- Provides a convenient way to connect and disconnect the air tube, without removing the mask.
- Allows flexibility for patient movement.

### Rotating elbow

- 360° elbow rotation allows patients to choose air tube position for maximum comfort.

### Secure and comfortable headgear

- Headgear clips allow quick attachment/detachment of headgear—no further adjustments required after initial fitting.
- Four points of attachment to mask frame for enhanced stability.

### Quick fitting

- Mask is packaged fully assembled with headgear.
- Adjustment of forehead support and headgear is all that is required on initial set-up.
